JOURNAL OF MILK AND FOOD TECHNOLOGY INDEX TO VOLUME 30

AUTHOR INDEX

ANDERSON, M. E., (see Heinz, 337)
ARENDS, R. E., (see Warren, 363)
BARTRAM, M. T., international microbiological standards for foods, 349
BELKNAP, R. A., (see Vaughan, 145)
BIRD, E. W., (see Wright, 310)
BLACK, L. A., (see Thompson, 273)
BROWN, D. F., (see Hall, 219)
BULAZO, G., Jr., upgrading levels of sanitation in the food-service industry, 77
CARAMANIAN, J., epoxy surfacing and coating of concrete areas, 121
CHRISTENSEN, L. J., (see Sing, 103)
CLARK, W. S., JR., low temperature microflora of young Cheddar cheese, 54
CONROY, W. D., public health agencies in housing, 369
COOK, W. C., (see Janzen, 205)
CRECELIUS, S. B., (see Podas, 39)
DABBAH, R., (see Tatini, 112); methods for grading milk, 71
DEMOTT, B. J., influence of vacuum pasteurization upon freezing point and specific gravity of milk, 253
DENNIS, C., (see Wright, 310)
DONNELLY, C. B., (see Hall, 219)
ELLIKER, P. R., (see Sing, 103); presidential address, 54th annual meeting, IAMFES, 239
ELLIOTT, L. P., modified milk test and comparison with mastitis tests, 150
EVERETT, R., 3-A sanitary standards over the years, 352
FAVERA, M. S., (see McDade, 179)
FENTON, F. E., manufacturing milk standards, 84
FOLEY, V. T., sanitarian meetings need improving, 81
FREEMAN, T. R., quality control programs of milk marketing cooperatives, 153
GEISTER, R. S., sanitation in meat and poultry processing plants, 67
GIBSON, D. L., management in dairy and food sanitation, 340
GILBERTSON, W. E., solid wastes: a worsening urban problem, 189
GREEN, J. H., problems of food harvest from oceans, 366
HALL, H. E., bacteriological examination of grade A dry milk powder, 219
HALL, L. B., (see McDade, 179)
HARGROVE, R. E., (see McDonough, 354)
HEDRICK, T. I., (see Smith, 256)
HEINZ, J. V., cleanliness of milk contact surfaces determined by analyzing for residual calcium, 337
HELDMAN, D. R., control of airborne contamination, 13
HOTCHKISS, D. H., (see Wright, 310)
INGLISH, H. J., nitrates in private water supplies in Morgan County, Missouri, 224
JANZEN, J. J., quantitative catalase procedure for abnormal milk, 205
LAGRANGE, W. S., (see Wright, 310)
LENNINGTON, K. R., food-borne disease problem today, 372
LEVIN, R. E., (see Silverrio, 242); EDTA as a fish preservative, 277
LITSKY, W., (see Tilton, 1)
LYNCH, M., mobile catering and consumption of food, 91
MAACK, A. C., (see Geister, 67)
MACFATE, R. P., public health laboratory and our environment, 325
MARSHALL, R. T., (see Heinz, 337)
MARTH, E. H., aflatoxins and other mycotoxins in agricultural products, 192; qualitative and quantitative determination of aflatoxins, 317
MAXCY, R. B., nature and growth response of the microflora of pasteurized, packaged milk, 213
MCDADE, J. J., sterilization requirements for space exploration, 179
MCDONOUGH, F. E., salmonellae in Cottage cheese, 354
MILLER, W. A., bacteria and yeast counts of prepackaged, sliced, cured bacon, and sliced, fresh side pork, 36
MORRIS, R. L., (see Ronald, 305)
OLSON, C. D., abnormal milk control and the sanitarian, 45
OLSON, J. C., JR., (see Daddah, 71; Tatini, 112)
OVERCAST, W. W., citrate-fermenting bacteria in Cheddar cheese, 18
PARRY, R. M., (see Smith, 186)
PATEL, G. D., (see Vanderzant, 171)
PODAS, W. M., latest developments in automatic dishwashing, 39
POSTLE, D. S., mastitis screening test results, 7
POTTER, N., AMFare automated restaurant system, sanitary aspects, 141
PRINDLE, R. A., food and modern times, 226
RANDOLPH, H. E., (see Freeman, 153)
RAO, K. M., (see Overcast, 18)
REINBOLD, G. W., (see Clark, 54; Vedamuthu, 247); avoiding common defects in Cheddar cheese, 321
REYES, A. L., (see Hall, 219)
REYNOLDS, R. G., automated milk phosphatase test, 21
ROBINSON, H. M., (see Hall, 219)
RONALD, G. W., copper and distilled water quality, 305
SANDINE, W. E., (see Sing, 103)
SCHOCK, J. P., sanitation in recreation areas, 344
SCHROEDER, S. A., salmonellae and staphylococci in milk, 376
SEARING, L. D., certified raw milk, 207
SENN, C. L., public health aspects of rotisseries in markets, 116
SILVERRIO, R., methods for determining bacteria in fresh fillets, 242
SING, E. L., testing procedures for plant sanitation, 103
SKINNER, R. A., water for ten million more Southern Californians, 138
SMITH, A. C., temperatures involved in bottling milk in paper containers, 186
SMITH, G. A., reuse of cleaning solutions in CIP, 256
SPOLYAR, L. W., philosophy of regulations, 82
SUAREZ, F. R., (see Vanderzant, 48)
TATINI, S. R., (see Dabbah, 71); comparison of plate loop and agar plate methods for bacteriological examination of manufacturing grade raw milk, 112
TELFORD, J. P., (see Reynolds, 21)
THOMPSON, D. I., 0.01 ml loop in the plate loop method for making viable counts of milk, 273
TILTON, R. C., characterization of fecal streptococci, 1
TITTSLER, R. P., (see McDonough, 354)
TWIGG, B. A., water use and conservation in food processing plants, 222
VANDERZANT, C., effect of freeze-drying on survival of psychrotrophic bacteria in dairy products 48; examination of some stored milks and meats for bacteria using a replica plating technique, 171
VAUGHN, R. D., report of public health service to conference

VAUGHN, R. D., report of public health service to conference

on interstate milk shipments, 145
VEDAMUTHU, E. R., (see Reinbold, 321); starter cultures for Cheddar cheese, 247
WARREN, H. B., staphylococci in freshened heifers milked with milking machines, 363
WILLIAMS, P. A., (see Senn, 116)
WRIGHT, E. O., protein solubilization and calcium and magnesium precipitation by chlorinated cleaners, 310

SUBJECT INDEX

Aflatoxins,
in agricultural products, 192
methods for determination, 317
Air,
control of airborne contamination, 13
space exploration, sterilization requirements, 179
Bacteria,
characterization of fecal streptococci, 1
citrate fermenters in Cheddar cheese, 18
control of airborne microorganisms, 13
disease producing in foods, 372
in dry milk powder, 219
in fish, 277
in pasteurized packaged milk, 213
in prepackaged pork products, 36
psychrotrophic types in young Cheddar cheese, 54
salmonellae
in Cottage cheese, 354
in foods, 372
in milk and milk products, 376
shigellae in foods, 372
standards for foods, 349
staphylococci
in milk and milk products, 376
in milk of freshened heifers, 363
starter cultures for Cheddar cheese, 247
toxicity of copper to, 305
vibrio in foods, 372
Bacteriological methods,
air sampling, 179
characterization of fecal streptococci, 1
comparison of plate loop and agar plate methods, 112
evaluation of plant sanitation, 103
mastitis screening tests, 7
modified MQT and other mastitis tests, 150
plate loop method using a 0.01 ml loop, 273
replica plating technique applied to milk and meat, 171
surface sampling, 179
to determine bacteria in fish fillets, 242
toxicity of copper in distilled water, 305
used for grading manufacturing milk, 71
Cheese,
avoiding common defects in Cheddar, 321
citrate fermenting bacteria in Cheddar, 18
fate of salmonellae in manufacture of Cottage, 354
low temperature microflora of young Cheddar, 54
starter cultures for Cheddar, 247
survival of psychrotrophs in Cottage after freeze-drying, 48
Chemical methods,
automated milk phosphatase test, 21
catalase test for abnormal milk, 205
determination of aflatoxins, 317
modified MQT and other mastitis tests, 150
residual calcium to determine cleanliness of milk contact surfaces, 337
Cleaning solutions,
protein solubilization and precipitation of calcium and magnesium by chlorinated cleaners, 310
reuse of, 256
Concrete, epoxy surfacing and coating, 121
Dishwashing, developments in automatic, 39
EDTA, as a fish preservative, 277
Fish,
methods for determining bacteria in fillets, 242
potential and problems of harvesting, 366
preservation with EDTA, 277
Food and modern times, 226
Food-borne diseases
aflatoxin and other mycotoxins, 192, 317
dried milk, 219
problem today, 372
salmonellae
in Cottage cheese, 354
in foods, 372
in other dairy products, 376
staphylococci
in dairy products, 376
in raw milk, 363
Food plants,
control of airborne contamination in, 13
water use and conservation in, 222
Food service industry,
AMFare automated restaurant system, 141
mobile catering, 91
sanitation in, 77
rotisseries in markets, public health aspects, 116
Freeze-drying, effect on survival of psychrotrophic bacteria in dairy foods, 48
Frozen food, fecal streptococci in, 1
Housing, activities of public health agencies in, 369
IAMFES
affiliate council, minutes of meeting, 97, 288
affiliate officers, list, 232
affiliate programs
Connecticut, 61, 95, 231
Florida, 61
Indiana, 359
Iowa, 230
Kentucky, 164, 231, 330
Michigan, 231
Missouri, 198, 231
Ontario, 125
New York, 357
Virginia, 61
Washington, 358
annual meeting
plans for, 124, 163
presidential address, 239
program, 159
report of, 284
resolutions adopted at, 330
awards
announcement of, 27
notice to submit nominations, 124
presentation of, 289-293
committee reports
applied laboratory methods, 360
baking industry equipment, 129, 332

communicable diseases affecting man, 125, 360
dairy farm methods, 28, 59, 122, 157, 259
education and professional development, 29
food equipment sanitary standards, 125
frozen food sanitation, 333
sanitary procedures, 96, 380
list of committees, 129, 201
new editor, 295
new officers, 293
offices, nominations for, 93
plans for merger, 137, 239
report of executive secretary, 61
Ice cream, survival of psychrotrophs in mix after freeze-drying, 48
Management, role in dairy and food sanitation, 340
Mastitis,
catalase test for abnormal milk, 45
comparisons of screening tests, 7
control of abnormal milk, 45
modified MQT applied to refrigerated milk, 150
staphylococci spread by milking machines, 363
Meat,
bacteria and yeasts in pork products, 36
replica plating technique for examination of, 171
sanitation in processing plants, 67
Meetings,
conference on interstate milk shipments, 208
sanitarian meetings need improvement, 81
Microbiological standards, international, for food 349
Milk,
automated phosphatase test, 21
catalase test for abnormal, 205
cleanliness of contact surfaces, determined by calcium residual, 337
conference on interstate shipment, 208
control of abnormal, 45
dried, bacteria in, 219
freezing point affected by vacuum pasteurization, 253
manufacturing, minimum standards for and processing recommendations, 84
mastitis screening tests, 7
methods for examining manufacturing grade, 71
microflora of pasteurized and packaged, 213
modified MQT and other mastitis tests, 150
plant sanitation, evaluation of, 103
plate loop and agar plate methods for examination of manufacturing grade raw, 112
quality control programs of marketing cooperatives, 153
replica plating technique for examination of, 171
report of USPHS to national conference on interstate shipments, 145
specific gravity affected by vacuum pasteurization, 253
staphylococci in, 363
temperature of in paper containers, 186
use of 0.01 ml loop in examination by plate loop method, 273
Molds,
aflatoxins and other mycotoxins in agricultural products, 192
methods for determination of aflatoxins, 317
Mycotoxins,
in agricultural products, 192
methods for determination of aflatoxins, 317
Phosphatase test, automated, 21
Poultry,
rotisseries in markets, public health aspects, 116
sanitation in processing plants, 67
Public health,
activities in housing, 369
aflatoxins and mycotoxins in agricultural products, 192
bacteria in dried milk, 219
food-borne diseases, 372
laboratory and environment, 325
report of USPHS to national conference on interstate milk shipments, 145
rotisseries in markets, problems of, 116
salmonellae
in Cottage cheese, 354
in dairy products, 376
in foods, 372
staphylococci in dairy products, 376
Quality control, programs of milk marketing cooperatives, 153
Recreation areas, sanitation in, 344
Regulations,
minimum standards for manufacturing milk recommended to state agencies, 84
philosophy of, 82
Salmonellae,
in cottage cheese, 354
in foods, 372
in milk and milk products, 376
Sanitation,
AMFare automated restaurant system, 141
automatic dishwashing, 39
cleanliness of milk contact surfaces, 337
control of
abnormal milk, 45
airborne contamination, 13
epoxy surfacing and coating of concrete, 121
in meat and poultry processing plants, 67
in recreation areas, 344
protein solubilization and precipitation of calcium and magnesium by chlorinated cleaners, 310
reuse of cleaning solutions, 256
role of management in, 340
space exploration, 179
tests for evaluating, 103
upgrading in food-service industry, 77
Shigellae, in foods, 372
Skimmilk, survival of bacteria in after freeze-drying, 48
Space exploration, sterilization requirements for, 179
Starter cultures,
for Cheddar cheese, 247
free of enterococci, 54
Staphylococci
in milk and milk products, 376
in raw milk, 363
Streptococci,
characterization of those from feces, 1
in young Cheddar cheese, 54
starter cultures for Cheddar cheese, 247
3-A sanitary standards, amendments,
air under pressure in contact with milk products, 263
evaporators and vacuum pans, 258
manually operated bulk milk and milk products dispensers, 156
multiple use plastic materials, 87, 241
multi-service milk containers and dispensing mechanism, 156
permanently installed product pipelines and cleaning

systems, 255
silo-type storage tanks, 264
3-A sanitary standards committee, pasteurization of ice cream mix and dried milk, 95
3-A sanitary standards over the years, 352
3-A symbol council,
holders of authorization, 88, 297
report of administrative council, 98
Vibrio, in food, 372
Viruses, in food, 372
Wastes, solid, an urban problem, 189
Water,
future requirements in Southern California, 138
nitrates in, 224
use in food plants, 222
Yeasts, in prepackaged pork products, 36

CONTENTS, VOLUME 30

JANUARY (NO. 1)

The Characterization of Fecal Streptococci. An Attempt to Differentiate Between Animal and Human Sources of Contamination. *Richard C. Tilton and Warren Litsky* ---- 1
Comparisons of Mastitis Screening Test Results From Quarter, Bucket, and Bulk Milk Samples. *D. S. Postle* ---- 7
Significance and Control of Airborne Contamination in Milk and Food Plants. *D. R. Heldman* ---- 13
The Occurence of Citrate-Fermenting Bacteria in Cheddar Cheese. *W. W. Overcast and K. M. Rao* ---- 18
Application of an Automated Procedure to the Milk Phosphatase Test. *R. G. Reynolds and W. J. P. Telford* ---- 21
Association Affairs ---- 25
Affiliates
Interim Report of Committee on Dairy Farm Methods—1966 ---- 28
Report of Committee on Education and Professional Development—1966 ---- 29
News and Events ---- 31

FEBRUARY (NO. 2)

Income Protection Insurance. ---- 35
Bacteria and Yeast Counts of Prepackaged, Sliced, Cured Bacon, and Sliced, Fresh Side Pork. *William A. Miller* ---- 36
Latest Developments in Automatic Dishwashing. *W. M. Podas and S. B. Crecelius* ---- 39
Abnormal Milk Control and the Sanitarian. *Carl D. Olson* ---- 45
The Effect of Freeze-Dehydration on the Survival of Certain Psychrotrophic Bacteris in Skimmilk, Ice Cream Mix Substitute and Cottage Cheese. *C. Vanderzant and F. R. Suarez* ---- 48
The Low Temperature Microflora of Young Cheddar Cheese. *W. S. Clark, Jr. and G. W. Reinbold* ---- 54
More Abstracts of Publications Recommended by Dairy Farm Methods Committee ---- 59
Association Affairs ---- 61
Report of the Executive Secretary—1966 ---- 61
News and Events ---- 62

MARCH (NO. 3)

Sanitation in Meat and Poultry Processing Plants. *R. S. Geister and A. C. Maack* ---- 67
Comparison of Methods for Grading Milk Intended for Manufacturing Purposes. *Roger Dabbah, Sita Ramayya Tatini and J. C. Olson, Jr.* ---- 71
Suggestions for Upgrading Levels of Sanitation in the Food-Service Industry. *George Bulaza, Jr.* ---- 77
Sanitarians Meetings Need Improving—One Man's Opinion. *Vincent T. Foley* ---- 81
The Philosophy of Regulations. *L. W. Spolyar* ---- 82
Minimum Standards for Milk for Manufacturing and its Production and Processing Recommended for Adoption by State Regulatory Agencies. *F. E. Fenton* ---- 84
Amendment to 3-A Sanitary Standards for Multiple-Use Plastic Materials Used as Product Contact Surfaces for Dairy Equipment, Serial No. 2000. ---- 87
Holders of 3-A Symbol Council Authorizations on February 20, 1967. ---- 88
Some Experiences with Mobile Catering of Food for Immediate Consumption. *Melvin Lynch* ---- 91
Association Affairs. ---- 93
Nominations for Offices of IAMFES, Inc. ---- 93
Report of the Committee on Sanitary Procedure—1966 ---- 96
Minutes of the 1966 Affiliate Council Meeting. ---- 97
Report of the 3-A Sanitary Standards Symbol Administrative Council—1966. ---- 98
News and Events ---- 99

APRIL (NO. 4)

Effective Testing Procedures for Evaluating Plant Sanitation. *E. L. Sing, P. R. Elliker, L. J. Christensen and W. E. Sandine* ---- 103
Comparison of Plate Loop and Agar Plate Methods for Bacteriological Examination of Manufacturing Grade Raw Milk. *Sita Ramayya Tatini, Roger Dabbah, and J. C. Olson, Jr.* ---- 121
Public Health Aspects of Rostisseries in Markets. *Charles L. Senn and Park A. Williams* ---- 116
Epoxy Surfacing and Coating of Concrete Areas. *John Carmanian* ---- 121
Additional Publications Recommended by Dairy Farm Methods Subcommittee ---- 122
Association Affairs ---- 124
Report of the Committee on Communicable Diseases Affecting Man—1966 ---- 125
Report of the Committee on Food Equipment Sanitary Standards—1966 ---- 125
Report of the Committee on Baking Industry Equipment—1966 ---- 129
News and Events ---- 131

MAY (NO. 5)

IAMFES and NAS Ad Hoc Committee of both Association's Executive Boards Discuss Plans for Merger ---- 137
Water for Ten Million More Southern Californians. *Robert A. Skinner* ---- 138
The Amfare Automated Restaurant System—Sanitary Aspects. *Norman Potter* ---- 141
Report of the U. S. Public Health Service to the National Conference on Interstate Milk Shipments. *R. D. Vaughn and R. A. Belknap* ---- 145
Use of a Modified Milk Quality Test on Refrigerated Milk and Comparison with other Mastitis Tests. *L. P. Elliott* ---- 150
Quality Control Programs of Milk Marketing Cooperatives in the United States. *T. R. Freeman and H. E. Randolph* ---- 153
Amendment to Rescind 3-A Sanitary Standards for Manually Operated Bulk Milk and Milk Products Dispensers, Multi-Service Milk Containers, and Dispensing Mechanisms, June 14, 1955 ---- 156
More Abstracts of Publications Selected by Farm Methods Subcommittee ---- 157
Association Affairs ---- 159

1967 Annual Meeting Program
News and Events ---166

JUNE (NO. 6)

Quantitative Microbial Examination of Some Milks and Meat Products During Storage by a Replica Plating Technique. *C. Vanderzant and G. D. Patel* ---171
Sterilization Requirements for Space Exploration. *J. J. McDade, M. S. Favero, and L. B. Hall* ---179
A Survey of Temperatures Involved in Bottling Milk in Paper Containers. *A. C. Smith, and L. R. Dowd and R. M. Parry* ---186
Solid Wastes: A Worsening Urban Problem. *Wesley E. Gilbertson* ---189
Aflatoxins and other Mycotoxins in Agricultural Products. *E. H. Marth* ---192
Association Affairs ---198
Additional List of Committees—1966-1967 ---201
News and Events ---202
